Table 1 Stream Numbers, order and Bifurcation ratio

Stream Order (u)	Stream number (Nu)	Bifurcation Ratio R_b
1	104	5.2
2	20	6.67
3	3	3.00
4	1	—
Total	128	$R_b=4.96$

From Table 1, the mean bifurcation ratio is **4.96**.

Table 2 The stream orders, lengths and length ratio

Stream order (u)	Stream length (Lu)	Length ratio
1	142.05	1.89
2	75.16	3.50
3	21.45	0.86
4	24.87	—
Total	263.53	$R_L = 2.08$

Slope, maximum and minimum height.

The maximum height is **385** m above mean sea level, the minimum is **2** m amsl and the mean is **168.24** m. It shows that the areas surrounding the stream channels have very low elevation.
