Correction to: Retraction Note (2020) 36:287–299

<https://link.springer.com/article/10.1007%2Fs12550-020-00392-x>

The authors have retracted this article because after further experiments, they were unable to repeat the protective effect of Zn presented in Fig. 5. There were also some discrepancies in the statistical analysis with Tukey–Kramer test, used to create Fig. 5. In addition, the error bars represent standard error, and not standard deviation as stated in the figure legend. The data reported in this article are therefore unreliable.

All authors agree to this retraction.
