This Expression of Concern relates to the article titled ‘Apoptotic suppression of inflammatory macrophages and foam cells in vascular tissue by miR-23a’ by Rabih Roufayel and Seifedine Kadry [1].

We are issuing this note as the authorship of this article is currently under dispute. Springer Nature is conducting an in-depth investigation in accordance with the Committee on Publication Ethics (COPE) guidelines. Further editorial action will be taken after the investigation has been concluded.

Both of the authors disagree with this expression of concern.

Compliance with ethical standards

Conflict of interest The author declares that she has no conflict of interest.
