Correction to: Statistics in Biosciences

<https://doi.org/10.1007/s12561-019-09259-x>

The original version of this article unfortunately contained an error in ‘R code’ under Appendix section.

In Models 3 and 4, the numeric variable “treat” should be in the fcluster random effect instead of the factor variable “ftreat.”

Therefore, the correct R code should read as follows:

```
# Model 3
lmer(y ~ ftime + ftreat + (1 | fcluster) + (0 + treat | fcluster) + (1 | clustime))
# Model 4
lmer(y ~ ftime + ftreat + (treat | fcluster) + (1 | clustime))
```
