Correction

In a paper describing *Microterys angustus* Zu, Li & Wang sp. nov. (Zu et al. 2018), the authors omitted to designate the depository of the holotype. Under Article 16.4.2 of the current International Code of Zoological Nomenclature (1999) this renders the name unavailable because the name and location of the depositor of the primary type must be designated.

Microterys angustus Zu, Li & Wang sp. nov. in Zu et al. (2018)

“Holotype. ♀ [on slide], China, Heilongjiang Province, Harbin City, Zhengyi Road, 10. V. 2015, Yan Gao (NEFU), reared from *Parthenolecanium corni* (Bouché) on *Acer saccharum* Marsh.” Holotype deposited in the insect collections of Northeast Forestry University,

Harbin, 150040, China. The species is described in full and compared with related species in Zu et al. (2018).
