The original version of this article unfortunately contained a mistake in the HTML version. The name of the cathode in abstract was incorrect. The correct version is given below:

A high-energy-density Li-ion battery with excellent rate capability and long cycle life was fabricated with a Ni-rich layered $\text{LiNi}_{0.8}\text{Mn}_{0.1}\text{Co}_{0.1}\text{O}_2$ cathode and SiO–C composite anode. The $\text{LiNi}_{0.8}\text{Mn}_{0.1}\text{Co}_{0.1}\text{O}_2$ and SiO–C exhibited excellent electrochemical performance in both half and full cells.

The original article has been corrected.
