The Canadian Journal of Anesthesia has retracted this article because a number of studies included in this review^{1–5} (originally cited as references 40, 62, 63, 64 and 80) have subsequently been retracted. In the opinion of the Editor-in-Chief and after consultation with Springer Nature's Research Integrity Group, this has rendered the content of the review unreliable. Joachim Boldt has not responded to correspondence from the Editor-in-Chief or the Publisher about this retraction.

Le Journal canadien d'anesthésie a rétracté cet article parce qu'un certain nombre d'études incluses dans ce compte rendu^{1–5} (citées à l'origine comme références 40, 62, 63, 64 et 80) ont été rétractées par la suite. De l'avis du rédacteur en chef et après consultation du Groupe pour l'intégrité de la recherche de Springer Nature, ces rétractions ont rendu le contenu de ce compte rendu peu fiable. Joachim Boldt n'a pas répondu à la correspondance du rédacteur en chef ou de l'éditeur au sujet de cette rétraction.
