Correction to: Silicon

<https://doi.org/10.1007/s12633-019-00251-0>

After a more careful reconsideration of the article (Fariba Safa*, Yousef Alinezhad, *Silicon*, doi:<https://doi.org/10.1007/s12633-019-00251-0>), it was found that the words: "Deviation of " are missing from the last sentence of section 3.7.

The correct sentence is as follows:

"Deviation of C from zero shows that some degree of boundary layer effect may also be involved in MG adsorption onto SFCNT nanocomposite and the effect increases with concentration of the dye [46]."

The original article has been corrected.
