The authors have retracted their article (Torrijo et al. 2017) because of significant overlap with previously published work (Rodriguez et al. 2015) and the masters thesis of Tomás Vicente Escrig entitled “Proyecto de mejora de relenos hidráulicos en la explanada de la terminal de granel sólidos en el Muelle Sur de la ampliación del Puerto de Sagunto”, which was defended in 2013 at Universidad Politécnica de Valencia.

F. Javier Torrijo, Julio Garzón-Roca and Santiago Alija agree with this retraction. Mário Quinta-Ferreira has not responded to correspondence about this retraction.
