Correction to: Mindfulness

<https://doi.org/10.1007/s12671-017-0830-y>

The authors would like to acknowledge an error in the results section of this paper. Figures 1 and 2 are inverted. Figure 1 shows the increase of salivary IgA levels and Figure 2 shows the decrease of salivary cortisol levels. This error has no implications for the results, data in the text are correct. Updated figures appear below. The original article has been corrected.

Fig. 1 Salivary IgA levels before and after the first and the last session of the intervention

Fig. 2 Salivary cortisol levels before and after the first and the last session of the intervention

The online version of the original article can be found at <https://doi.org/10.1007/s12671-017-0830-y>
