The original version of this article unfortunately contains some mistakes.

- (1) In page 4, the description text for Fig. 6, the sentence ‘Figure 6a to e show the leading MCA mode between JA Antarctic sea ice concentration (JA-ASIC) and 700 hPa-GPH (H700) south of 20°S’ should be replaced by ‘Figure 6a to e show the leading MCA mode between March 700hPa-GPH (M-H700) south of 20°S and Antarctic sea ice concentration (ASIC)’.
- (2) In page 5, the description text for Fig. 6, the sentence ‘Each title of figures contains the name of each pattern, CF value and correlation coefficient between two time series of each pattern (CR).’, and two words ‘JA-’ and ‘and CR’ in this paragraph should be deleted for their redundant.
- (3) In page 6, the caption of Fig. 6, ‘JA-ASIC and H700’ should be replaced by ‘M-H700 and ASIC’ and ‘JA-ASIC’ at the end of the first sentence should be replaced by ‘ASIC’.
