ACKNOWLEDGEMENTS

Our Annual Thanks to JMT's Peer Reviewers

Mark B. Mycyk¹

The Editorial Board of *Journal of Medical Toxicology* (JMT) would like to recognize and thank all those who served as peer reviewers for this journal in 2020. Medical journals depend on the experience and sometimes under-appreciated work of its reviewers. Peer review remains an important step in making sure the studies published in JMT are cutting edge, scientifically credible, and add meaningfully to the body of medical knowledge. We understand peer review is not perfect but remains “a collaborative effort on the part of readers, reviewers, and authors” as mentioned by Natalie Neumann, JMT’s 2019–2020 FIT Editor.

We are especially thankful to our 2020 reviewers for two noteworthy reasons. Most importantly, our expert peer reviewers also serve as front line healthcare providers in emergency departments, critical care units, pharmacies, laboratories, and poison centers. While managing an unprecedented COVID-19 pandemic, they still managed to find the time to review a record number of manuscript submissions to JMT in 2020. Their dedication to JMT during an extraordinarily

challenging year is appreciated by our editors beyond words. Second, at the end of 2020, JMT was accepted for inclusion in SCIE (Science Citation Index Expanded). Our first impact Factor score will be released in early summer of 2021, and we express our sincere gratitude to JMT’s reviewers who did not compromise their high standards to achieve this distinction.

The list below includes only those reviewers currently registered on our web-based journal portal (Editorial Manager), and thus, some individuals who reviewed last year may not be on the list. To those reviewers omitted from the list below, we apologize, but also thank you very much. In addition to being acknowledged here and seeing the result of their efforts in every published manuscript, peer reviewers at JMT are again eligible for up to 15 credits of continuing education credit from our partners at the CDC. Many thanks to our reviewers in 2020!

Mark B. Mycyk, MD, FACMT

Editor in Chief, *Journal of Medical Toxicology* (JMT)

Supervising Editor: Howard Greller, MD
