<https://doi.org/10.1007/s13193-021-01292-x>

There is misrepresentation of details of the last patient in table-1 (i.e 10 year male with Ewings sarcoma who has undergone vascularised fibular graft). Patient had expired on 9 th postoperative month (status- dead). This patient developed both local recurrence and distant metastasis (LR: Yes, DM: Yes).
