Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.

In Figure 3 (a) the axis title as well as units are inadvertently mentioned as “Wavenumber (cm^{-1})”, which should be read as “Wavelength (nm)”. In the same Figure, the peak labels are mistakenly mentioned with units of “ cm^{-1} ” instead of “nm”.

The “Ramanathan et al. 2009” reference in Photoluminescence section of Results and discussion is mistakenly mentioned and therefore it should be ignored.
