The original version of this article unfortunately contained a mistake. Equation 7 was incorrect in the PDF of the article. The value 10 should be changed to 100. The correct equation is given below:

$$\text{Normalized seat share for INC} = \frac{\text{Seat share of INC}}{\text{Seat share of BJP} + \text{Seat share of INC}} \times 100$$

The original article can be found online at <https://doi.org/10.1007/s13278-023-01087-8>.
