The original version of this article unfortunately contained a mistake; some of the below corrections are published inadvertently. The corrections are given below:

1. Section 3.2 page 5, the equation after equation (11), the last line should be changed to "> 0 if $k > \deg_{avg}$" by switching $>$ and 0 and align it with the above line.
2. Section 3.3, Equation (15) in page 5 is incorrect, '$>$' should be added in the middle.
3. Section 4.2.2 page 11, "Amazon Product" should be changed to "AmazonProduct" by deleting the space. "Amazon Product" occurs 3 times and should be revised 3 times.
4. Section 4.2.2 page 11, "it outper forms GSES" should be changed to "it outperforms GSES".

The Original Article has been corrected.
