Near the end of fifth paragraph in the Introduction, an equation in the next to last sentence should read:

$$J = \max[\text{TPR} + \text{TNR}], \text{ not } J = \max[\text{TPR} + \text{TPR}].$$

The complete sentence, corrected, should read:

The Youden index can be calculated relatively easily, $J = \max[\text{TPR} + \text{TNR}]$.
