In the original article the name of author Chris Sanborn was misspelled. It is correct here. Also, in the Acknowledgments section there was an error in the NIH/NINDS grant numbers. The statement should read “This work was supported in part by the grants NIH/NINDS R01NS094108 and NIH/NIDA R01DA043162 (to JJH)”.

Publisher’s note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
