"After the publication of "On Hom-Jordan algebras and their $\alpha^k - (a,b,c)$ type derivations" Ivan Kaygorodov informed us that some results of our paper partly are contained in the paper "Beites, P. D.; Kaygorodov, Ivan; Popov, Yury Generalized derivations of multiplicative n-ary Hom- Ω color algebras. Bull. Malays. Math. Sci. Soc. 42 (2019), no. 1, 315–335." Moreover, this paper even contains some more general results. We were not aware of the existence of this paper.
