Correction to: Demography

<https://doi.org/10.1007/s13524-019-00809-y>

The authors would like to correct the second sentence of abstract to read:

First, we use Lexis surfaces based on Serfling models to highlight influenza mortality patterns as well as to identify lingering effects of early-life exposure to specific influenza virus subtypes (e.g., H1N1, H3N2).

Publisher's Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
