After publication of this paper, it came to our attention that most of the material presented as original research had already been published in another journal.

The *Brazilian Journal of Physics* has the policy of not publishing articles that contain large portions of previously published material. We consider this a serious breach of the ethics of publication.

In view of this fact, after careful analysis, the editorial board of the *Brazilian Journal of Physics* has decided to retract this paper.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s13538-015-0330-2>.
