Correction to:
Horticulture, Environment, and Biotechnology
<https://doi.org/10.1007/s13580-020-00282-2>

The original version of this article unfortunately contained two mistakes. A percent sign was missing in the abstract, and in Sect. 3.2, a sentence incorrectly read as “Many researchers showed differences in minerals contents as affected by different cultivars, but it was evident what made the differences.”, while it should read as “Many researchers showed

differences in minerals contents as affected by different cultivars, but it was not evident what made the differences.”

The original article has been corrected.
