An error has slipped in the Appendix. In the definitions of the variables $z_{i,t}^+$ and $z_{i,t}^-$ the right texts are:

- $z_{i,t}^+$ Binary variable equal to 1 if $X_{i,t}$ ($i \in I, t = 1, \dots, T$) is greater than the upper limit of production mix preservation and to 0 otherwise
- $z_{i,t}^-$ Binary variable equal to 1 if $X_{i,t}$ ($i \in I, t = 1, \dots, T$) is less than the lower limit of production mix preservation and to 0 otherwise
