Retraction Note to: Int. J. Environ. Sci. Technol. (2015) 12:983–994 DOI 10.1007/s13762-013-0483-x

The authors are retracting this article (Krika et al., 2015) because Figure 2C and the text describing it are duplicated from a previously published article by Allouche et al. (2011). All authors agree to this retraction.
