Correction to: Infection

<https://doi.org/10.1007/s15010-021-01683-w>

In the “Results” section of this article, the sentence “Among male patients, 0.11% died (54/478 pts), and among female patients, 0.09% died (62/663 pts).” should instead have read “Among male patients, 11% died (54/478 pts), and among female patients, 9% died (62/663 pts).”

The original article has been corrected.
