Author Correction: Current Anesthesiology Reports (2021) 11(1):37–47
<https://doi.org/10.1007/s40140-021-00444-7>

The original version of this article contained mistakes; corrections are numbered below:

1. The author affiliations should read as follows:

Thomas Drew^{1,2,3} and Jose C.A. Carvalho⁴

¹ Department of Anaesthesia, The Rotunda Hospital, Dublin, Ireland

² Department of Anaesthesia, Beaumont Hospital, Dublin, Ireland

³ Department of Anaesthesia, University College London Hospital, United Kingdom

⁴ Department of Anesthesiology and Pain Medicine, Mount Sinai Hospital, University of Toronto, Toronto, Canada

2. Table 1, third column, second row, should read as follows:

Elective CD: 100 µg over ≥ 30 s Intrapartum CD: 100 µg over ≥ 30 s Smaller doses (as low as 20 µg) may be sufficient at

elective CD; in this case, doses can be repeated if required, up to 100 µg

Do not exceed 100 µg

3. An “E” should be removed before the final heading:

Optimizing a Prevention Strategy—Balancing Safety and Efficacy. The Role of the 2019 Uterotonic Consensus Guidelines on the Use of Uterotonic Drugs During Cesarean Delivery

4. Fig.1 caption should be in keeping with the actual figure, with a capital A and B.

Publisher’s Note Springer Nature remains neutral with regard to jurisdictional claims in published maps and institutional affiliations.
