In the online supplementary material page 3, second paragraph, line 10, where it reads “...the correction factor and age in months was selected by...” should read “... the correction factor and age in years was selected by...”

In the online supplementary material, Equation 5 which previously was

$$correction_factor_i = 0.95 - \frac{0.3}{1 + e^{-0.4*(age-50)}} \quad (5)$$

should be

$$correction_factor_i = 0.95 - \frac{0.3}{1 + e^{-0.4*(age-6)}} \quad (5)$$
