## Correction to: Clinical Pharmacokinetics

<https://doi.org/10.1007/s40262-023-01273-z>

In Table 1 of this article, an incorrect footnote was inserted, and it should have been ‘Values are mean (standard deviation) except for  $t_{\max}$  for which the values are median (minimum and maximum values)’.

The original article has been corrected.
