Dear Reader,

As we approach the end of 2015, and publish our final issue of *Drugs & Therapy Perspectives* for the year, the editors and production staff at Adis wish to reflect on another successful year's achievements and pay thanks to all those who have contributed their time and effort to guarantee the exceptional quality of our content.

We are delighted to have seen the conclusion of formalities surrounding the joint venture of *Springer Science+Business Media* and *Nature Publishing Group, Palgrave Macmillan, Macmillan Education* in early May. Substantial ground has already been made in the integration of business within the resulting *Springer Nature* company and we at Adis look eagerly toward the future, as the benefits of the collective expertise and capabilities of this company carry us forward.

The majority of our journals saw a rise in ISI impact factor against the previous year. Most notably, *BioDrugs* increased by 41 % to 2.989; the *European Journal of Drug Metabolism and Pharmacokinetics* increased 19 % to 1.563; *CNS Drugs* increased by 17 % to 5.113; *Targeted Oncology* increased 16 % to 4.000; *Pediatric Drugs* increased 15 % to 1.975; *Drugs & Aging* increased 13 % to 2.838; and *Molecular Diagnosis & Therapy* increased a further 12 % to 2.891, having already jumped 53 % in the preceding year. We hope to build upon these gains, once more, in 2016.

The Adis Book programme has grown substantially and 20 new titles will have been published over the course of the year. Over 50 further titles are currently in development with leading academics, internationally, and we continue to add more to the list. Our thanks, again, to all who have submitted these valuable proposals to date.

We offer our sincere thanks to all individuals who have reviewed or contributed articles to *Drugs & Therapy Perspectives* over the course of 2015. Their skill and dedication are critical to the continued publication of the journal and high standard of articles. In addition to the members of our Honorary Editorial Board, we would like to thank the following individuals who acted as reviewers for articles published in print in *Drugs & Therapy Perspectives* in 2015:

Darrell R. Abernethy, USA
N. Agarwal, USA
Luis Almeida, Portugal
Sabina A. Antoniu, Romania
Francisco Araujo, Spain

We hope that you have found the articles published throughout 2015 to be both interesting and informative. The editors look forward to keeping you up to date with topical issues related to rational drug use and disease management in the clinical practice setting in 2016.

With best wishes from the staff of *Drugs & Therapy Perspectives* and all at Adis Publications.
