**Table III** Results from the base-case analysis of Sativex® plus oral medicines against oral medicines for spasticity due to MS over 5 years

	Sativex + oral medicines	Standard treatment (oral medicines alone)	Incremental
<b>Life years (undiscounted)</b>			
Responders on treatment	1.8396	0.0000	1.8396
No adequate response and on treatment	0.0562	4.9395	−4.8833
No adequate response and withdrawn from treatment	3.0437	0.0000	3.0437
Total	4.9395	4.9395	0.0000
<b>QALYs (discounted)</b>			
Responders on treatment	0.9807	0.0000	<b>0.9807</b>
No adequate response and on treatment	0.0270	2.2167	−2.1898
No adequate response and withdrawn from treatment	1.3639	0.0000	<b>1.3639</b>
Total	2.3716	2.2167	0.1548
<b>Costs (discounted), £</b>			
Drug costs for treatment responders	7,216	0	7,216
Drug costs for patients on treatment but no sufficient response	204	0	204
Cost of drug wastage	76	0	76
Cost of clinic visits for treatment responders	663	0	663
Cost of clinic visits for patients on treatment but no sufficient response	80	1,298	−1,218
Cost of clinic visits for withdrawals	686	0	686
Total	8,925	1,298	7,627
<b>Cost/QALY, £</b>			<b>49,257</b>
