Keywords Communication to the public · Framing · Work freely accessible ·
Licensing clause · Effective technological measure · Fundamental rights

Article 3(1) of Directive 2001/29/EC of the European Parliament and of the Council of 22 May 2001 on the harmonisation of certain aspects of copyright and related rights in the information society must be interpreted as meaning that the embedding, by means of the technique of framing, in a third party website page, of works that are protected by copyright and that are freely accessible to the public with the authorisation of the copyright holder on another website, where that embedding circumvents measures adopted or imposed by that copyright holder to provide protection from framing, constitutes a communication to the public within the meaning of that provision.
