Unfortunately, in the first sentence under the section head “Point shear wave elastography”, the transducer name was misspelled as CA451 (rather than CA 541).

The complete correct sentence is given below:

pSWE.ESA examination was performed with a MyLab Twice equipment (Esaote, Genova, Italy) with convex probe CA541.

The original article can be found online at <https://doi.org/10.1007/s40477-017-0260-7>.
