Erratum to: Acad Psychiatry (2016)
DOI: 10.1007/s40596-016-0537-8

The legend description for Fig. 1 in the original version of the above article contained an error. The correct legend description should read as follows:

Fig. 1. Participants' increase in subscores across six mentoring competencies before and after the workshop (scale 1 to 7; 1 not at all skilled, 4 moderately skilled, 7 extremely skilled; $n=36$). *Error bars* represent the standard error of the mean. *Represent $P \leq 0.003$

In addition, there is an error in the sentence containing the pre-post scores describing Fig. 1 under the Quantitative Analyses section. The correct sentence should read: As illustrated in Fig. 1, there was a significant interaction between mentorship domain and pre-post scores [$F(5, 155)=2.5, P < 0.003$].

The online version of the original article can be found at <http://dx.doi.org/10.1007/s40596-016-0537-8>.
