Correction to: Journal of Nephrology
<https://doi.org/10.1007/s40620-020-00943-6>

While typesetting the article, the conclusion section was incorrectly published. The correction conclusion section was copied below:

Citrate buffer modulated IL-6, hsCRP and Klotho levels during high volume OL-HDF. These results are not attributable to differences in the dialysis technology that was

applied and may suggest a potential biological effect of citrate on CKD-associated inflammatory state.

The original article has been corrected.
