The original version of this article contained a mistake. In the recently published paper, “Self-Aggregation of Deep Convection and its Implications for Climate”, there was an error in Eq. 1, as a “+” was inadvertently dropped before the final portion of the equation. The correct equation is below:

$$\lambda = \frac{dR}{dT} = \frac{dN}{dT} + A \frac{dB}{dT} + B \frac{dA}{dT} \quad (1)$$

The authors apologize for this oversight and for any confusion it may have caused.
