Welcome to the second issue of *Medical Science Educator* of 2018. This issue features a number of new manuscripts reporting on medical education, which I hope will be of interest to you.

The Outstanding Reviewer Award 2019 will be presented in June to recognize one of the journal's reviewers for his or her outstanding peer review efforts over the past year. This will be the second year the award will be presented to one of our reviewers. Recipients are selected based on several criteria including reviewer performance scores provided by the Associate Editors on every review performed during the year. The reviewers who meet the criteria are nominated for the award. For this year's award, I am pleased to announce that the following reviewers have been nominated: Stefanie Attardi, George Bergus, Michael Bradbury, Raeann Carrier, Shaadi Fouad Elswaifi, Catherine Fuller, Claire Kirchhoff,

Machelle Linsenmeyer, Victoria Lucia, Khiet Ngo, Neil Osheroff, Richard Vari, and Nagaswami Vasan. They all will receive a Certificate of Excellence, and the final winner of the award will be announced at the IAMSE Annual Meeting. The Editorial Board is thankful to these individuals and also to all the other IAMSE members who dedicate their valuable time to reviewing for the journal.

The Board is happy to see that every year more and more educators find their way to *Medical Science Educator* to present their scholarly work. I therefore hope you will enjoy this issue and that you will continue supporting *Medical Science Educator* both as a reader and as an author of your own scholarly work for the benefit of our work and the work of others!
