Welcome to the third issue of *Medical Science Educator* of 2021. The current issue features a large number of manuscripts reporting on medical education, which I hope will be of interest to you.

The journal is growing strong and in my opinion clearly becoming one of the leading journals in medical education. Last year the journal received over 760 manuscripts from 70 countries all over the world, and over 172,000 articles have been downloaded by our readers. I feel these numbers are a good indication for the growing impact the journal has on the scholarly community worldwide. The Editorial Board is obviously very pleased with this increasing interest for *Medical Science Educator*. We are also very pleased to see many of our readers offer their services as a reviewer. Still we are always looking for more reviewers who would like

to become part of our reviewer team, so if you want to join us to assist in this important endeavor, please let us know as we highly appreciate your help!

I hope you will enjoy this issue and that you will continue supporting *Medical Science Educator* both as a reader and as an author of your own scholarly work for the benefit of our work and the work of others!

Peter G.M. de Jong, PhD
Editor-in-Chief
