The original version of this article, unfortunately, contained an error. In the recently published paper, “Health Effects of Climate Change Through Temperature and Air Pollution,” there was an error in the first paragraph of the Introduction.

The parenthetical text in the last sentence should be excluded from the sentence. The corrected sentence should read:

The former has direct data showing that it is brought about by climate change, and the latter is seriously disturbed by the temperature changes caused by climate change.

The authors apologize for this error.
