Correction to: Rheumatol Ther <https://doi.org/10.1007/s40744-021-00303-1>

In the original article published, under the abstract section, the sentence “The health status of more than one third (27.5%) of patients was moderately or highly impacted by fibromyalgia.” is incorrectly typeset by the copyeditor during the typesetting stage. The correct sentence is “Less than one third (27.5%) patients’ health status was moderately or highly impacted by fibromyalgia.”

The original article has been corrected.

The original article can be found online at <https://doi.org/10.1007/s40744-021-00303-1>.
