Author Correction: Evolutionary Psychological Science
<https://doi.org/10.1007/s40806-020-00229-x>

The original version of this article contained an error in how the results of a prior research study were reported. The 3rd sentence under the section “**Inferred Social Value of Male and Female Features**” should read as “For example, men value women’s waist-to-hip ratio in attractiveness, which although not associated with fertility is associated with women’s maximum reproductive value (Lassek and Gaulin 2018; Singh et al. 2010).” The citations in this correction correspond to the these references:

References

- Lassek, W. D., & Gaulin, S. J. C. (2018). Do the low WHRs and BMIs judged most attractive indicate higher fertility? *Evolutionary Psychology*, 16, 1–16.
- Singh, D., Dixon, B. J., Jessop, T. S., Morgan, B., & Dixon, A. F. (2010). Cross-cultural consensus for waist–hip ratio and women’s attractiveness. *Evolution and Human Behavior*, 31, 176–181.
