For this paper the figure captions unfortunately got mixed-up. The correct captions are as follows:

Fig. 1 Location of the study area. R1 and R2 represents the reach 1 and reach 2 respectively which are most avulsive in the study section. M1 to M10 indicate the meander loops

Fig. 2 Cross-profiles across the studied reaches. P1, P2, P3, P4 represent the floodplain surface morphology. Arrows indicate the present channel position

Fig. 3 Temporal changes of the meander amplitude of two reaches from 1955 to 2011. M1 and M9 has experienced with reduction of amplitude for the cut off development

We sincerely apologize for any inconvenience caused.
