The Editor-in-Chief has retracted this article [1] because it shows significant overlap of both text and data with the Master's thesis of Taha Aawar, "Hydrological modeling in Kabul river basin: a case study of Afghanistan.", which was defended at the Department of Water Resources Development and Management, Indian Institute of Technology, Roorkee, in June 2019.

Authors Surendra Kumar Mishra and Anil Kumar Lohani agree with this retraction. Author Elyas Khairandish does not agree to this retraction.

Update

Since the publication of this retraction the Editor has been informed that Elyas Khairandish would like to update their

response to indicate their agreement. Therefore the full statement should now read as follows: "Authors Elyas Khairandish, Surendra Kumar Mishra and Anil Kumar Lohani agree with this retraction."
