In the version of the article originally published in the December, 2018 issue of *Sci China Mater* (2018, 61: 1567–1574, <https://doi.org/10.1007/s40843-018-9262-5>), the authors used a duplicate figure (Fig. S2, same as Fig. S4) in the Supplementary information by mistake. The corrected version of Fig. S2 appears below.

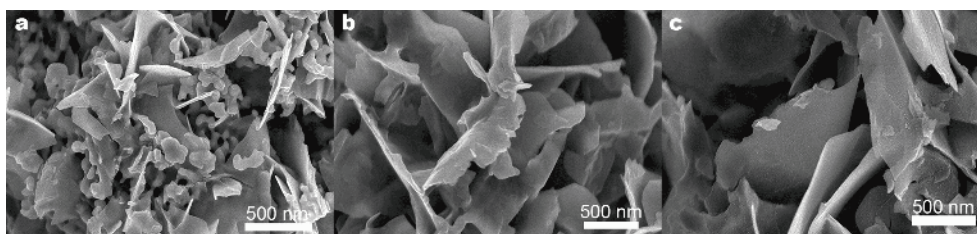

Figure S2 SEM images of as-prepared WN nanostructures at different hydrothermal pH values: (a) pH 0.5, (b) pH 1.5, and (c) pH 2.
