There is a minor typographical error on page 3 which says that the hyperbolicity of the polynomial  $P(X)$  is equivalent to  $D_{d,m}(P(X)) \geq 0$  for all  $m \leq d$ . The correct statement is that the hyperbolicity of  $P(X)$  is implied by all  $D_{d,m}(P(X))$  being strictly positive. This does not change any of the main results of the paper. The authors would like to thank Jacques G elinas for pointing out this mistake.
