Retraction Note: Sleep and Biological Rhythms (2018) 16: 307–313 <https://doi.org/10.1007/s41105-018-0157-7>

The editors have retracted this article [1] because they remain unconvinced by the provenance, ownership and reliability of the data that the authors claim to have collected using the application ‘myCircadianClock’ within this study. As a consequence, the conclusions within this publication are unreliable. In addition, it did not have ethical oversight from a relevant ethics committee. None of the authors agree to this retraction.
