**Correction to: Journal of Soil Science and Plant Nutrition**  
<https://doi.org/10.1007/s42729-021-00643-5>

The first sentence of the abstract of this article as originally published contained a grammatical error and has been corrected to read:

The Litterbag-NIRS method demonstrates and studies the microbial biodiversity of soil in an indirect way, observing the quality decay of ground hay, under real field conditions.

The original article has been corrected.
