Retraction Note to:
Pharmacological Reports volume 69 (2017), pages
1270–1281
<https://doi.org/10.1016/j.pharep.2017.06.005>

The Editor-in-Chief has retracted this article [1]. After publication concerns were raised about anomalies in some of the data presented in Fig. 1. The authors were unable to provide raw data. The Editor-in-Chief therefore no longer has confidence in the integrity of the data in this article.

Author Zhi Wang agreed to retraction but has not stated if they agree to this retraction notice. The remaining authors could not be contacted by the journal.
