Correction to: Revista Brasileira de Farmacognosia

<https://doi.org/10.1007/s43450-020-00032-6>

This article was updated to correct the sentence “The four metabolites from the aqueous extract where **8** (611 mg/kg DW), more accounted for than 95%...” which was truncated during the production process.

The online version of the original article can be found at <https://doi.org/10.1007/s43450-020-00032-6>
