Corrigendum to “Austenite Grain Refinement by Reverse $\alpha' \rightarrow \gamma$ Transformation in Metastable Austenitic Manganese Steel” [J. Iron Steel Res. Int. 22 (2015) 157–162]

Jia-tao Zhang, Yu-guang Zhao*, Juan Tan, Xiao-feng Xu

Key Laboratory of Automobile Materials of Ministry of Education, Department of Materials Science and Engineering, Jilin University, Changchun 130022, Jilin, China

The authors regret that the data of peak temperature in Table 1 are incorrect. Please find the updated data in the corrigendum. The authors would like to apologize for any inconvenience caused.

Table 1

Discharging duration and corresponding peak temperature

Discharging duration/ms	11	15	19	22	23	24	28
Peak temperature/°C	150	320	500	600	625	650	820
