

**<sup>252</sup>Cf-Plasma Desorption Mass Spectrometry**

There will be a workshop on June 15-19, 1992, on the topic of <sup>252</sup>Cf-Plasma Desorption Mass Spectrometry (PDMS). It will be held in Gaspé, Québec, Canada. The focus of the meeting is recent advances in the fundamentals, applications, and commercialization of <sup>252</sup>Cf-PDMS. However, the sessions on gas-phase fragmentations and time-of-flight reflectrons will be of general interest.

This remote area in Québec is noted for its spectacular confrontation of mountains and sea. This area is surrounded by parks, beautiful beaches, and small fishing villages. For more information, contact Dr. Catherine McNeal, Department of Chemistry, Texas A & M University, College Station, TX 77843-3255, or phone 409-845-2355 or fax 409-845-8987.

**The 19th Federation of Analytical Chemistry and Spectroscopy Societies**

This meeting will be September 20-25, 1992, at the Adams Mark Hotel, Philadelphia, Pennsylvania. The deadline for abstracts is March 4, 1992. Papers are solicited in all areas of analytical chemistry including mass spectrometry. For information on the scientific program contact Barry Lavine, Program Chair, Department of Chemistry, Clarkson University, Potsdam, NY 13676, or FACSS National Office, P.O. Box 278, Manhattan, KS 66502, or phone (301) 846-4797.
